References to sources should be placed in square brackets, for example, [1, 10];
- 7) **summary** – on in Russian *Резюме*, in Latvian *Kopsavilkums*. The summary includes description of the main results and conclusions.
- 8) **paper structure:**
 - Introduction (brief and clearly formulated focus of the research, relevance, the goal of the research, research methods);
 - Key findings in theory, practice;
 - Results of the research;
 - Conclusions and recommendations;

Section headings should be written in English, Latvian and Russian languages.

- 9) **references** – dubbed *References, - Список литературы и источников* in Russian, *Literatūras un avotu saraksts* in Latvian - should be written in English, Latvian and Russian languages (Times New Roman Bold, font size 10 pt, centred). References should be numbered (Times New Roman, font size 10 pt). References in Latin transcription should come first, followed by references in Cyrillic, with consecutive numbering. Internet sources format - include full information (author, source title, homepage address) and date of the last visit of the web source.

All papers will be reviewed anonymously.

Papers failing to meet these requirements will not be published.

Paper Evaluation Criteria

Participants of the conference take part in the competition of the paper.

1. Paper presentation (10 points):
 - methodological background of research (formulation of the aim and tasks of the paper);
 - logical coherence, statement of arguments and evidence in the content of the paper;
 - precise and concise formulation of research results.

2. Application of visual aids (10 points):
 - scale of involving and applying visual aids during presentation;
 - visuality and precision of tables, figures, schemes, etc.

3. Competence in the researched field (10 points):
 - Background knowledge about the issue of research;
 - Compliance of the used sources with the specific theme and extent of references to them in the paper.
 - Answers to questions (precision of answers, concise and focused formulation of answers, free and competent expression of one's opinion).

The results of the evaluation will be summed up; in case of identical results a determinant factor will be the number of points gained under the 3rd criterion.
